

# SurfSHIELD™

Natural barriers that protect and preserve

## Protect Your Products with Our Anti-abrasive and Scratch-resistant Solutions

### APPLICATION

- An environmentally responsible, water-based coating engineered to protect packaged products from abrasion and scratching caused during transportation
- Pads and partitions used in packaging for glassware, automotive parts, beverages, cosmetics and more
- Protective packaging for appliances, furniture, tool boxes and more

### PRODUCT COMPOSITION

Coated and/or laminated linerboard or chipboard; laminated honeycomb-shaped protective packaging. Available in several colors.

### PRODUCT FUNCTIONALITY

- Prevents scratches and abrasion
- Eliminates the need for partitions
- Printable using flexographic or offset printing
- FDA compliant for direct and indirect food contact
- Coatings remain intact during the corrugating process – up to 375°F
- Glueable: hot melt or cold set

### PRODUCT RANGE

- Linerboard grades ranging from 20 lb. to 69 lb./1000ft<sup>2</sup> – other grades available upon request
- Maximum roll width of 88 inches or 223.5 cm
- Standard core diameter of 4 inch or 10.16 cm – other sizes available upon request
- Outside diameter range of 58 inches or 147.3 cm
- Standard color is green, with other colors available upon request

### Benefits

- 100% recyclable, 100% repulpable
- Customized orders accepted
- Flexibility in order quantity and lead time for delivery
