

SurfSHIELD™

Natural barriers that protect and preserve

Moisture Barrier Solutions

CASCADES SONOCO'S PROTECTIVE COATINGS

Linerboard treated with our water-based coatings offers a recyclable and repulpable alternative to wax-curtain-coated and wax-impregnated medium boxes

APPLICATION

Enhances the structural integrity of your fruit and vegetable boxes by providing moisture-resistant coatings that withstand high-humidity environments

PRODUCT TYPE

Corrugated box

COATING OPTIONS

Customized water based coatings, extrusion coatings, or a combination of the two

PRODUCT FUNCTIONALITY

- Water repellent
- Moisture resistance to allow water run off inside the box through vent holes
- Linerboard solutions that improve box integrity and strength related to stacking, edge and ring crush, LTS (long term storage) and for shipping
- Gluable: Hot-melt and cold set
- FDA compliant for direct and indirect food contact

PRODUCT RANGE

- Customized to your functional and design needs based on supply chain requirements – maintains fresh look from the field to the retail shelf
- We listen to you so that we can design and develop a cost-competitive solution that meets your needs and effectively delivers your message
- Meets rigorous environmental conditions
- Linerboard grades ranging from 20 lb. to 69 lb./1000 ft²*
- Customized coating weights to meet requirements associated with food and freezing conditions

*Other grades available upon request

Benefits

- 100% recyclable and repulpable when treated with water-based coating
- A recyclable and repulpable alternative to wax-curtain-coated and wax-impregnated boxes
- Eliminates plastic bags
- Reduces costs and can produce new revenue by letting you recycle, instead of landfill, packaging
- Matte or gloss finish
- Surface printability
- Laminated solutions offer weight and fiber reduction options
